

# Build Your Winning Team With DEI Data Science

## Included assists diversity recruiting one easy action at a time

DEI and Talent Acquisition leaders need a data-driven strategy. Included is the leading DEI platform to automate and scale your talent attraction operations. We deliver easy action steps to the right person at the right time to drive meaningful progress on representation goals.

Included is a customizable, big data solution powered by AI and easily integrates with your HR tech stack and ATS to pull in your people data. We take care of the DEI data science, allowing you to measure, iterate, and drive your strategy instantly. Here are the benefits:

- Know which sources yield the best talent
- Improve time-to-fill for open roles
- Reduce recruiting costs per hire

Have confidence in your talent attraction strategy, and never miss an opportunity to source & hire top talent from diverse groups. Included delivers an end-to-end platform, with total visibility into your DEI data insights and action steps for the entire employee lifecycle.
